## Important Announcement: Alien Registration Rule

**Effective April 11, 2025, DHS's new Alien Registration Rule will officially take effect.**

- The rule was challenged in court by AILA (American Immigration Lawyers Association) and other partners – but the court denied the request to pause or delay the rule.

### **What is the Alien Registration Rule?**

This rule updates immigration regulations by:

- Introducing a new registration form (**Form G-325R**) for certain noncitizens.
- Requiring online registration through MyUSCIS (each person needs their own account).
- Mandatory biometrics appointment & background check.
- Proof of registration will be available through the MyUSCIS account.

### **How should you register?**

#### **If you are required to register:**

- You must create a MyUSCIS account.
- You will be asked to complete Form G-325R.
- Be prepared to attend a biometrics appointment for fingerprinting and background checks.
- Your registration confirmation will only be available online – no paper proof will be mailed.
